

COVERALL SIZING

To find your coverall size, measure your chest and inseam, and choose the corresponding size. If you are in between measurements, choose the larger size. If waist size is larger than chest size, use waist measurement to choose your size.

CHEST: Place 0" mark of the tape measure in the center of your chest. Tape should wrap around the broadest part of the chest, under the arms and resting across the shoulder blades, back to the center of chest. Tape should be level and laid flat, held neither too tight, nor too loose. The point where the tape meets the 0" mark, (in the center front of the chest), is your measurement.

INSEAM: Use a pair of pants that fit you well, (they should not be too loose around the waist). Measure the inseam of the pants by positioning the tape's 0" mark on the center seam of the crotch, down the inside leg seam, to the hem. The point where the tape meets the hem is the inseam length.

WAIST: Place 0" mark of the tape measure in the center of your **natural waist**. Tape should wrap around the back to the front center of waist. Tape should be level and laid flat, held neither too tight, nor too loose. Do not suck in your stomach or you will get a false measurement. The point where the tape meets the 0" mark is your waist measurement.

ALPHA & NUMERIC SIZING																				
ALPHA SIZES	SMALL		MEDIUM		LARGE		XL		2XL		3XL		4XL		5XL		6XL		7XL	
NUMERIC SIZES	34	36	38	40	42	44	46	48	50	52	54	56	58	60	62	64	66	68	70	72
MAX CHEST MEASUREMENT	34"	36"	38"	40"	42"	44"	46"	48"	50"	52"	54"	56"	58"	60"	62"	64"	66"	68"	70"	72"

Sizes are based on actual body measurements.

INSEAM LENGTHS	
Length of Garment	Coverall Inseam Measurement
Short	28"
Regular	30"
Tall	32"
Extra Tall	34"

NOTE: When taking these measurements, use a cloth tape measure, not a metal one. Measurements should be taken over standard undergarments. If you plan to wear clothing beneath coveralls, order one size larger, to accomodate the extra garments.
